# Introduction to Rawalpindi Medical University

## Vision

Highly recognized and accredited centre of excellence in Medical Education, using evidence-based training techniques for development of highly competent health professionals, who are lifelong experiential learner and are socially accountable.

## Mission

To impart evidence based research oriented health professional education in order to provide best possible patient care and inculcate the values of mutual respect, ethical practice of healthcare and social accountability.

**Prof Muhammad Umar (S.I)**  
*Vice Chancellor*  
*Rawalpindi Medical University*

**New Lecture Theatre Complex**  
*Main Campus*  
*Rawalpindi Medical University*

# Introduction to Department of Anatomy

## Vision

Centre for clinically oriented human anatomy teaching, training and research for future health professionals

## Mission

To train undergraduate medical and allied students at the university in clinically oriented applied anatomy.

## Message from the Head of Department

The Anatomy Department comprises of sixteen faculty members, four lecture halls, three laboratories, bone bank and museum.

International standard anatomy education is provided to more than 1200 students every year. It is affiliated with Rawalpindi Medical University and is recognized for MBBS, Nursing and Allied Health Disciplines.

Our goal is to provide a strong and intelligent educational foundation for healthcare workers with special emphasis on morals, compassion and dignity.

**Prof Dr Ayesha Yousaf**  
*MBBS, Mphil (Anatomy)*  
*Head of Department*  
*Dean Basic Health Sciences*

## Objectives

To provide high quality anatomy education to all students, in line with modern practices and ethical guidelines.

To encourage the advancement of anatomical knowledge through research and innovation.

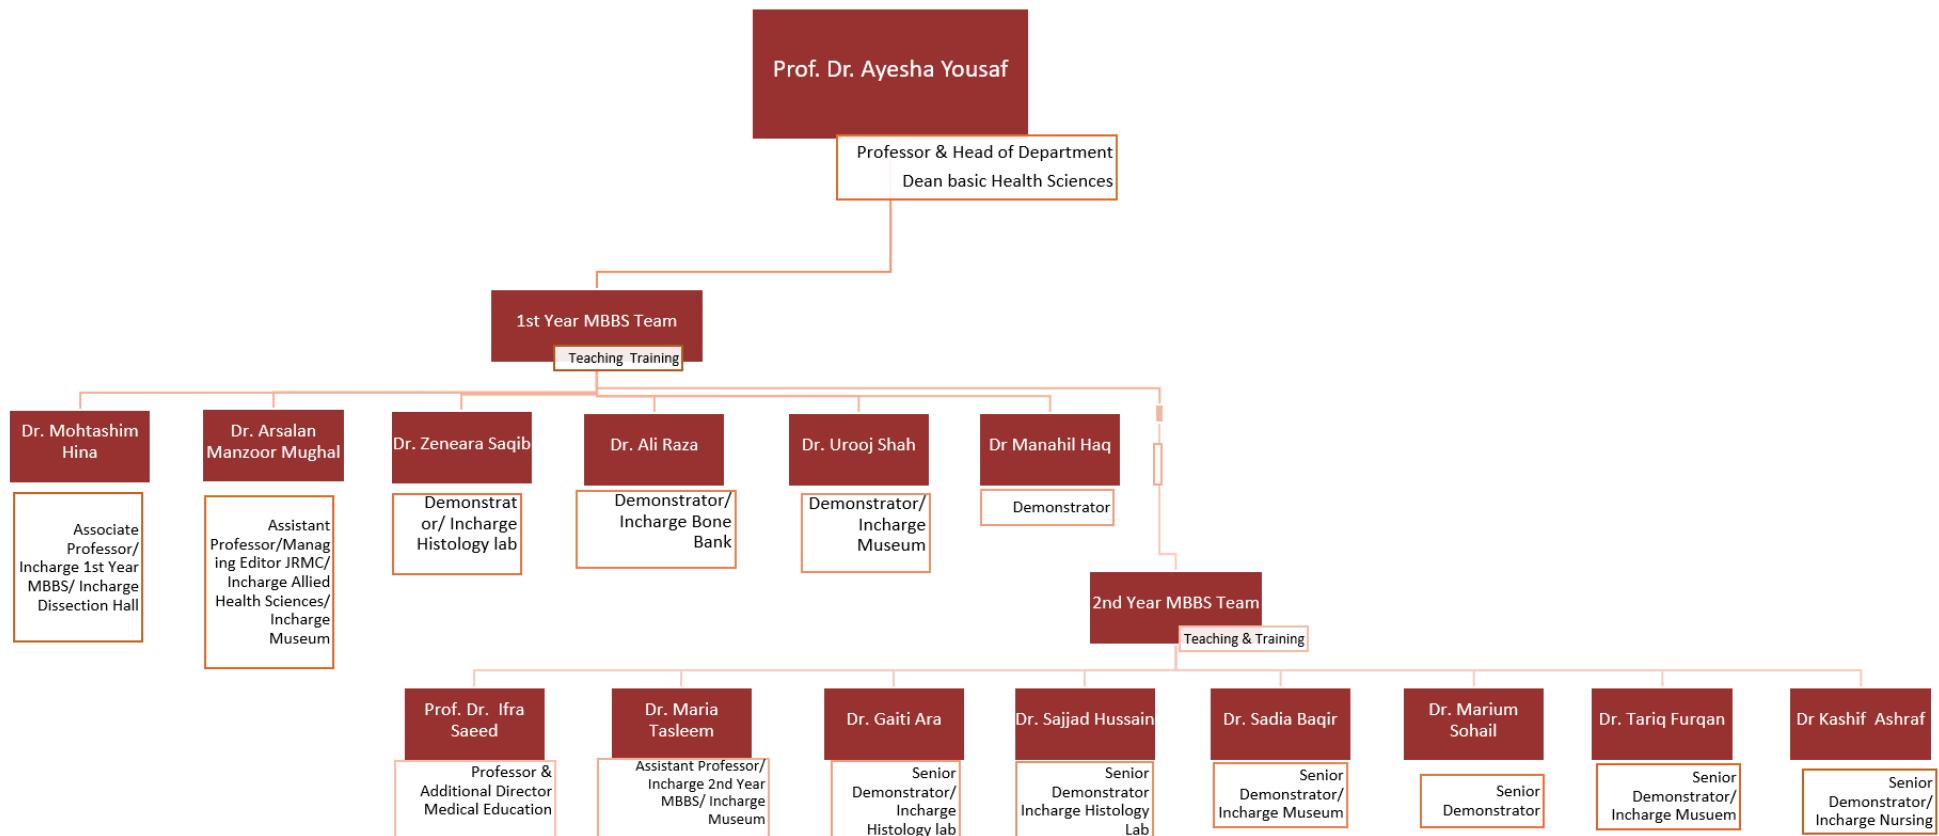

To teach our students clinical, moral and research-based implications of basic anatomical knowledge and practices.

**Department of Anatomy**

## Infrastructure

The Department is located on the first floor of Main Campus Rawalpindi Medical University at Tipu Road comprising of,

## Lecture Halls

- Two State of the art lecture halls with 350 capacity each
  - Two Departmental lecture halls with 200 capacity each

## Laboratory

- One Dissection Hall with 175 seating capacity
  - One Histology Museum with 100 seating capacity
  - One Research Laboratory

## Bone bank

## **Anatomy Museum** with 50 seating capacity

## **Faculty Offices**

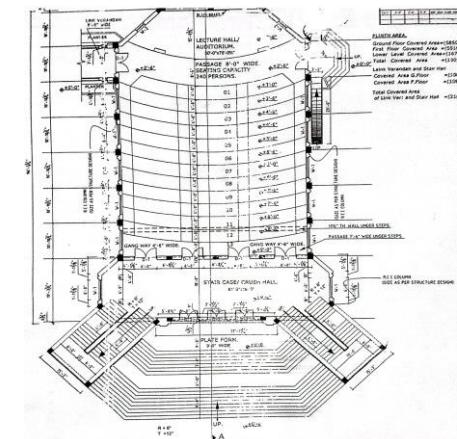

- Three Professor Offices
  - Three Assistant/Associate Offices
  - Two Demonstrator Rooms
  - One Computer Operator Room

## **One Storage Room**

## Departmental Map

## New Lecture Theatere Complex

## Ongoing Faculty Research Projects

| Disciplines  | Subjects   |
|--|--|
| The department caters to teaching and training of over 1000 undergraduate and postgraduate students in the following disciplines.  | <b>General Anatomy</b><br>It is the foundational study of the body's structures and their relationships, providing a broad understanding of anatomical terminology and basic organ systems.                          |
| <b>MBBS</b> <ul style="list-style-type: none"><li>• 1<sup>st</sup> Year (376 students)</li><li>• 2<sup>nd</sup> Year (374 students)</li></ul>  | <b>Gross Anatomy</b><br>It focuses on the examination of organs and tissues visible to the naked eye, exploring their structure and function through dissection and observation.                                     |
| <b>B.Sc and Allied Health Sciences</b> <ul style="list-style-type: none"><li>• 1<sup>st</sup> Year (124 students)<ul style="list-style-type: none"><li>• Optometry</li><li>• Orthotics</li><li>• Doctor of physiotherapy</li><li>• Medical Imaging Technology(MIT)</li><li>• Medical Laboratory Technology(MLT)</li></ul></li><li>• 2<sup>nd</sup> Year (80 Students)<ul style="list-style-type: none"><li>• Doctor of physiotherapy</li><li>• Optometry</li></ul></li></ul> | <b>Microscopic Anatomy (Histology)</b><br>It delves into the intricate world of tissues and cells, using microscopy to study their morphology and function in detail.  |
| <b>B.Sc Nursing</b> <ul style="list-style-type: none"><li>• 1st Year (500 students)</li></ul>  | <b>Developmental Anatomy (Embryology)</b><br>It investigates the growth and formation of organisms from conception to birth, exploring the development of anatomical structures and their changes over time          |
| <b>Diploma in Medical Jurisprudence</b> (7 postgraduate students)  | <b>Radiological Anatomy</b><br>It involves the use of medical imaging techniques such as X-rays, CT scans, and MRIs to visualize and analyze the internal structures of the body, aiding in diagnosis and treatment. |
|  | <b>Clinical Anatomy</b><br>It applies anatomical knowledge to the practice of medicine, helping healthcare professionals understand the anatomical basis of diseases, surgical procedures, and patient care.         |

## Module 3- MSK-II

---

### Content Areas

| <b>General Anatomy</b> | <b>Embryology</b>   | <b>Histology</b>  | <b>Gross Anatomy</b>                         |
|------------------------|---|---|--|
| Muscles<br>Skin        | Development of Axial Skeleton<br>Development of limbs<br>Development of muscles | General Histology<br>Muscles<br>Skin<br>Skin appendages | Gluteal Region to Lateral compartment of leg |

### Faculty Contact Hours

| Sr No. | Teaching Strategies                    | Total Hours         |
|--------|--|---------------------|
| 1      | Large Group Interactive Session (LGIS) | 2 * 13 = 26 hours   |
| 2      | Small Group Discussions (SGD)          | 2*21=42 hours       |
| 3      | Case Based Learning (CBL)              | 2* 2 = 4 hours      |
| 4      | Practical / Skill Lab                  | 1.5 * 20 = 30 hours |

# BSc Nursing

## Teaching Schedule

**Date of Commencement:** 01-08-2023

**Venue:** Lecture Hall 3 / 4, Main Campus, Rawalpindi Medical University

**Time:** 10am to 12noon

| <b>Unit 1:- Introduction To The Body As A Whole</b> |             |  |                    |
|---|-------------|--|--------------------|
| <b>Serial no.</b>                                   | <b>Date</b> | <b>Learning Objectives</b>   | <b>Facilitator</b> |
| 1.  | 01-08-2023  | Define the term Anatomy<br>Understand the relationship b/w anterior & posterior<br>Define level of organization of the body<br>Define anatomical position<br>Describe the various body planes  | Dr. Ali Raza       |
| 2.  | 02-08-2023  | Define the body cavities<br>Discuss body cavities and list the organs lying within each cavity<br>Identify abdomino-pelvic region & quadrants<br>Identify the organs present in 9 quadrants<br>Briefly discuss the importance of abdomino-pelvic quadrants and regions | Dr. Sajjad         |
| <b>Unit 3 :- Cell, Tissues And Membrane</b>         |             |  |                    |
| 3.  | 08-08-2023  | Describe structure & functions of a cell<br>Discuss the process of cell division i.e. mitosis & meiosis<br>Briefly discuss the importance of mitosis and meiosis   | Dr. Arsalan        |
| 4.  | 09-08-2023  | Classify the tissues of the body on the basis of structure, location & function<br>Classify epithelial tissue<br>Classify connective tissue  | Dr. Zeneara        |
| 5.  | 15-08-2023  | Classify muscle tissue on the basis of structure, location & function  | Dr. Kashif         |
| 6.  | 16-08-2023  | Classify nervous tissue on the basis of structure, location & function   | Dr. Kashif         |
| <b>Unit 4 :- The Skeletal System</b>                |             |  |                    |
| 7.  | 22-08-2023  | Define skeletal system<br>Discuss the structure, types & function of bones<br>List the function of skeletal System<br>Identify the bones of axial & appendicular skeleton<br>Describe the bones of rib cage/chest  | Dr. Kashif         |
| 8.  | 23-08-2023  | Describe the bones of pectoral girdle and upper limb   | Dr. Kashif         |
| 9.  | 29-08-2023  | Describe the bones of pelvic girdle and lower limb   | Dr. Kashif         |
| 10.   | 30-08-2023  | Describe the bones of skull & vertebral column   | Dr. Kashif         |
| 11.   | 05-09-2023  | Describe the bones of pelvis and discuss the differences b/w male and female pelvis  | Dr. Kashif         |
| <b>Unit 5 :- The Joints</b>                         |             |  |                    |
| 12.   | 12-09-2023  | Define the term joint<br>Discuss with examples<br>Fibrous Cartilaginous & Synovial joints  | Dr. Kashif         |

|  |            |   |            |
|--|------------|---|------------|
| 13.  | 13-09-2023 | Describe a synovial joint<br>Describe its common characteristic features<br>List the type of synovial joints and movements possible on them | Dr. Kashif |
| <b>Unit 6 :- The Muscular System</b>                               |            |   |            |
| 14.  | 19-09-2023 | Define the following terms fascia, epimysium, perimysium, endomysium , tendon & aponeurosis   | Dr. Kashif |
| 15.  | 20-09-2023 | Describe the location and function of neck and face muscles   | Dr. Kashif |
| 16.  | 26-09-2023 | Describe the location and function of major muscles of back and upper limb  | Dr. Kashif |
| 17.  | 27-09-2023 | Describe the location and function of major muscles of lower limb   | Dr. Kashif |
| <b>Unit 7 :- The Integumentary System ( Skin, Nail &amp; Hair)</b> |            |   |            |
| 18.  | 02-10-2023 | Describe two layers of skin<br>Epidermis & dermis<br>Briefly discuss structure & function of sweat glands, sebaceous gland, hair & nail     | Dr. Kashif |
| <b>Unit 8 :- The Cardiovascular System</b>                         |            |   |            |
| 19.  | 03-10-2023 | Explain the structure & function of arteries, vein and capillaries  | Dr. Kashif |
| 20.  | 09-10-2023 | Describe the location, structure and functions of the heart and its great vessels<br>Describe the conducting system                         | Dr. Kashif |
| <b>Unit 9 :- The Lymphatic System</b>                              |            |   |            |
| 21.  | 10-10-2023 | Define lymph & the lymphatic system<br>Identify and describe lymph nodes, spleen & thymus   | Dr. Kashif |
| <b>Unit 10 :- The Digestive System</b>                             |            |   |            |
| 22.  | 16-10-2023 | Define digestive system<br>Identify various organs of GIT<br>Discuss structure of mouth, esophagus & stomach                                | Dr. Kashif |
| 23.  | 17-10-2023 | Discuss structure of intestine & Accessory organs   | Dr. Kashif |
| <b>23-10-2023 MCQ ASSESSMENT</b>                                   |            |   |            |

# Diploma in Medical Jurisprudence

## Teaching Schedule

**Date of Commencement:** 01-08-2023

**Venue:** Department of Anatomy, Main Campus, Rawalpindi Medical University
